DETAILED ACTION

Election/Restrictions

 Applicants' amendment filed on 27 January 2006 canceling all claims drawn to the non-elected invention and presenting only claims drawn to the elected invention is noted.
 Claims 1-48 & 53-79 are presented for prosecution.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 3. Claims 1-2, 4-20, 25,57-58 rejected under 35 U.S.C. 102(b) as being clearly anticipated by Boerma et al. (US Pat. 4,696,911).

US'911 teaches a nickel-base catalyst composition prepared in the presence of a process gas and fat component at a temperature of at least about 100°C; which is then contacted with an unsaturated feedstock at a second temperature no greater than 70°C producing a hydrogenated feedstock. See col. 2 for parameters that read on dependent claims 2, 4-20, 25,57-58.

4. Claims 28-48, 53-56, 59-79 allowed.

5. Claims 3, 21-24, 26-27 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
